was the first the captain knew of her wheresbouts. They stopped the holes in the vessel with tarred canvas, and got the vessel back to Sea Cove. Capt. Nickerson. will lake her to Bucksport in the spring . for repairs, and will be ready for business when the river opens. The damage will amount to three or four hundred dollars.
The anchors and cables have been recovered since by some fishermen and restored to the schooner. to the schooner.

BEAUTIFUL WINDOWS ... . L

Just Placed in Position at At Joan's Catholis. Church. For about three weeks the work of, putting in the beautiful new glass windows at Str John's Cathollo Church, has been lattended and the association starts with going on in charge, of Mr. Donton, who represents Pastet & Co., of New York, through whom the windows were obtained, and it will be completed this week, probably on Phursday. Five of these colored windows, were put late the church fast May, and it is the remaining fifteen that; have recently been arranged in place. A Write recorder visited the church and while admiring the effect and studylog; their symbolic ideaping loarned some facts, percalning to them?

Percalning to them. The Treel glass The windows are from the Tyrol, glass is stitutes in the Alps on the line between Raly and Switzerland and he artist has done some exceedingly skillful work upon them, representing this different subjects with great care. The material is antique, lapicishable glass, which has not been painted on colored. Hach window is twenty-one feet in higher, and the long extent of refinement and richards in coloring makes a most beautiful effect. They are attracted in a certain order so that each successive pleasure and successive pleasure for the infancy and public, life of Chiles begun in the first. The beginning is Christ begun in this first. The beginning is made at the front of the charch, and each window represents a different subject, with harled design. The representations are as dollows: ,"The Annunciation," "The Vis-tation to St. Elizabeth," The Birth of Christ, "The Presentation in the Temple," Christ in the Temple among the Doctors," The Holy Faulty, "Baptism in the Jordan," "The Miracle in Caoa," Christ Blessing Little Children, v. The Widow's Altie," VAlagdaten Washing, the Feet out Christ," "The Prodigat Son! Christ Praying in the Moufit of Olivish "Christ in the Sea," "The Resurrection, "The Ascension," "St. Paul Pronching to the Remans, The Special Charge to St. the Acomans, "The Special Charge to St. Peter," Wistom of the Sherell Light," and "St. Edward," Thus is given the history of the Salv Testament in a manner, that present a luceyents most world. The un-

cultivated kad cultivated wind allikoban take in pirktion from the diject lessoil. These are probably the most beautiful windows of the kind in the country, and they, together with the handsome and expensive, frescoing, which was done last year, give the laterior of the church a flac effect. Full relief statues, fourteen in number, are to be placed between the win dows some time toward she latter part of February, and they will represent the "Lassian of Cur Lord", "Lo Rev. Fatner MeSweeney to largely due the on dir of s greatly beautlying the church, and addlog to its impressiveness, and he has been untiring in his efforts to bring about the desired result which is about to be at

[CONTINUED.] The shoot we head with a little little smile 'No, but I shall never forged it! Your attitude only brought home to ma, almost more strongly than I could be me, what have suspected a long, long stand he contempt which seople. Bigs you and Mr. Wallace feel for mp!"

"Contempt or led Kendal, beside himself, and feeling at if all the critiches, he had allowed himself to make of her were recolling in one averaging mass upon his head, "I never feel anything but, the warmen admireration for lyour courage, your work, your

hami balf unconsciously for her clock, which she put round her as though the wood had undessly from he old, sainterator, for me as a voman, cortempt for me as an artist!

There's the whole here truth. Does it hold, my fintire in it. I smander! Is there nothing in me but this beauty that becopic talk of, and which I soosedines hate!!

Ene swept her hair beck from her forcebedd with a farre itematic gestere. It was as though the self in her was rising up and asserting itself against the judgment which and been passed upon it, as if some hidden force, hardly suspected even by herself, were best-ing against its sear. Kmdal, wat the day in helpless allance. "Tell me," she listel, lifting har deep hazed even upon him, "you owe so to me—you day only men so on much frain. No, no; you did not mean it! But tell me, and tell me from the bottom of your least—that is, if you are in erested enough it me—what is, if you are in erested enough it me—what is, if you are in erested enough it me—what is, if you are in erested enough it me—what is, if you are in erested enough it is east to threatening me with failure as an artist! I work all day long; my work is never our of imp head; it seems to prime me hall night. But the more I arrughts with it the less shootened in even to be in the internal of the me was begin in the impulsive way as a sort of an orpicle who alone could help her outlof her difficulty. In presence of that look his own conventionality fell away from him, and he spoke the plath, direct truth to lett. [2] "What you want, he said allowly, as if the words were forced from him, "Is knowledge from books," and the knowledge other people, could teach, you. I want a true sense for what has been done and what! can be done with your ere, and you want an insight allo the world of idea, lying round it and about it. You are very young, and you have lead to truin yourself. But over, human art sowadars is so dompleated that none of it cap get on without using the men what is lind been lead to the you lead to the pole of the s

sho was Föking at him intentity it struck him, has he could just possibly have, said what he lind been enying unless he had been led or by an institutive dependence upon a great magnanisative for nature in het. And then the next hiement the stringe opposites the matter held his lifeashed servest kim. He cannot of praise with which lighter on the stage; his earl seemed to be fail of the clamps of praise with which London had been overwhelming its favorite; It was to this spoked oblid off fortune that he he bed playing the schoolmaster—had do captions man of letters, against the world.

But she had nod a thought of the kind, or rather the shundled processed little for being words, instead, of being those of apsingly critic, were the two words and the embedding to the fail the variet for little and so a highest feet a roll of inflavoring analyzed to the fall the variet rountle which had been settling upon her by this wars clong of her own feelings and kind.

"I am very geteful to you," she said stridity; "very," It is strange but almost when I flost sawfore I felt that there was

own feelings and flag. [1] [1] [2] [3] [4] an very greteful to yook, she said steiddly; "very! It is stranged but almost when I first saw you I felt that there was something evident In you to me I My dream in which I have been living her mover been to perfect since, and now I think it has gone. Don't took to grilyed," she eried, langurestibly teuclied by this face. "I am giad you told me all hou thought. It will be a halp to me. And has for poor Elwis!, she added/try ingle amile, for all her extreme paleness, "tell Mr. Wallace I give her un; I am just vexed! I am no anny. Don't you think nowing had been go hear too Mrs. Strart! I should like a lent with her before we all meet again."

She anvied forward has her sup was uniteady and that she was deadly which [Ho planted himself before her in the descending path and better her was and he had been her like green him her own, and he carried if impactionally to his lips.

"You are neblecess itself?" he cried, from the depths of his himst. "He fell as it I had been the merest redact blundere—the meet incapable, clumy liber.

She suited, but she could not answer. And in a few more known to be heart spriceshing, and the sense could be heart spriceshing, and the sense.

seatward.

"It has been an unfortunate business," said Kandal storuphly. "I never did a himsy yerse, I think or spent a more paintul hard hour."

upon the meter as fightest, i flan root autoparticularly to tell you that the was not vexted, and you shay be quife serre that the limit, to any viginer seem. Fortungs that makes it all the worns, Ebowers, you've a right to know what happened, so I'll tell you as from I resemble.

He gave an shringer asponsh of the con-

should, as I said before, let the thing alone as seach as possible. She will probably speak to you about it, and you will, of course, say what you like, hub I'm presty sure she way take up the play grain, and if the field a coolease towards anybody it won the toward.

Calmed Wallace.

"Arryhow, make the best of it, my dear follow," said Keedal, as though determined to strike a lighter key. "Bout be be dismal, things will look differently to morrow morning—they concernly, do—there's in tremend—

things will look differently to-more wimorning—they goverally do—thera's no. tremendous harm done. I'm serry I didn't do your bidding better. Hencetly! when I come to think over it! I don's see how I could have done otherwise. But I then expess you to think so."

Walkee Isughed, protested and they parted! "A few morsants later Kepdal by himself into his rooms where lights were burning, and threw himself into his reading chair, beated which his books and peperal stood ready to his hand. Generally nothing gave him a greater seems of blen-tre than this lightly return, after, a day spent in society to these allent and faithful compenious of lea life. He was accustomed to feel the introsphere of his room when he came back to a charged with welcome. It was as though, the thoughts and selemes he had first warm and safe in shelter there started to life again after a day's torpor, and through to limet him. His books smiles at him with friendly faces, the open page called to him for resume the war in overy some at home. To night, be war in overy some at home. To night, however the familiar swell semied to have up at him, the soft wispe of her golden brywn-hair, under [her] har. What's superly, underpreachable beauty it would How living, how rich-in content and expression!

"Am I full bre with label Brytherton" he asked himself at last, lying back on his chair with his lyer on the portrait of his sister. "Portage Marie could tell me—I ton't understand reyealf. I don't think so. 'And H I were, I am not a youngater, and my life is a tolorably full one. I could hold award in and trample it down it is ware best to do so, I can bridly imagine myself absorbed in a great fassion. My thachelpr life is a good many years old—my limbtil work broke the cally. 'And supposing I fold the beginnings of it, I could slop it if reason were again it it."

He lot his chair and began to parcup and down the room, thinking. "And there is absolutely no sort of 'reason in my letting my-self fall in love with laabel Bretherton! She has nover given me the mailest right to think that at takes any more interest in me than she does in hundreds of poople when also meets on friendly terms, anless thay be an intallectual interest, as Wallace imagines, and that's a poor sort-of, stepping stone to love!' And M is were over possible hat abe should, this internoon has taken any to the arranker; it would be a woman may be,' a thing the chartanker; it

ided she may have, she must believely here to that which is lyour believely on the working without it, and I shall always recall to her something harsh and humilisting!

"Supposing I were able to gather upmy relation with her again and make it is really trickelly one—I should take, it think, a vary climite line I should make up my initial to be of use to her. [After lall, it is trie what she says—there are many things in no that one 12 hould take the says—there are many things in no that one 12 hould take the says—there are many things in no that one 12 hould be left and oversthing. there was abe should have the benealt of. I would make a kerious purpose of \$1. She should find the a friend worth having?

[His thoughts wandered on a while in this direction. It was pleasant to see himself in the future [as Miss Brotherton's philesopher, and friend, but in the end the sense of "cality, gained upon his dreams." [Tam o for.]"] he said to himself resolutaly of last, "and I may as well go [to bed and] put her out of my mind. The chaine is over-gone-dous with, if the over existed."].

ago? He opened it and found the fo

ton on the might of the Nensism expedition, and Wellogo chil. This is mirely home had been very quite. Miss Bretherson had been forced to declare the read "extremely threat." It would and but her, she git and him Brant's anxiety and sense of responsibility about her had communicated themselves to the rest of the party.

"It is the effect of my long day yesterday," she said apploptically to Fobes, who had been themselves to the rest of the party.

"It is the effect of my long day yesterday," she said apploptically to Fobes, who had read about her with those affectionate attontions which a man on the verge of old age pays with freedom to a young girl..."

"Walkee, who had batton Kendal merged from the world do to let he public see so much of me in judium. I flout I don't want to spot our world to to let he public see so much of me in judium. I flout I don't want to spot our mind the world in view of the rest of the party, was restead, and it is the another there was been greated from the world in view of the rest of the party, was restead and it is the case, but there was been greated from the world in view of the rest of the party, was restead and it is a case, but there was been greated from the world in view of the rest of the party, was restead and the motel in themself:

"Walkee, which is a war was and in his corner, dill contained on reference to mist the lifted at the motel party is a standard with a standard was plant."

"That is like ber; I be motel of restriction of rest of rest in the party of restriction of rest in the could be a standard on the party of restriction and the party of restriction and the party of restriction and the motel in the rest of the mind the motel in the rest of restriction in the right of the motel in the motel in the motel in the restriction and the motel in the restriction in the restriction and the motel in the restriction in the motel in the motel in the restriction in the restriction and the motel in the restriction and t decorum and grammar!

When he nort met Wallace, that hopeful, height tempered person had cattlely recorred his cheerfulness. Miss live-teston, he reported, had attacked the stablest of Elivias with him, but so lightly that he had no opportunity, for saying any of ite skillful things he had prepared.

"Bigo evidently did not want the question serfocialy logened," he said, "so I followed your satrice and let he show, and since shed has been charming both for gauge and need if feel myself as much of the said that he can do is to shold my tenges about his To which Keeddathwardly agreed.

"A few days attenwards the twesperets gave as prominent place to report to of files."

Kendalhrardiy agreed.

A. few days atterwards the sewspapers, gave as prominent place to my take fill the distinguished people in London we have the laten a wreak social event. Hell the distinguished people in London we have recent, led by royalty. London, in fact, could hardly bear to park with its favorite, ment, flowers afth farswalls and very londer. Kendal, who had not bear to go at the time when there takes to be had, tried about the middlejof the week, after the Okford Sondhy to got a seat, by found it uptous the light propositie. He wight have managed it by applying to be through he was a weak, by found it uptous the late of the week after the Okford Sondhy to got a seat, by found it uptous late in the middlejof the week after the Okford Sondhy to got a seat, by found it uptous late in the middlejof the wind and we managed it by applying to be through he was will be seat to be seath its answer close his failutions with her far, the present? Every where also but in the theether she might atill regard him as it friendly but there they could not but be integonistion some degree one to another, and not even in tellectually diff Kendal with jet now to meet her our a fooding of antagonism.
